KHYBER PAKHTUNKHWA RURAL ACCESSIBILITY PROJECT (KP-RAP)

COMMUNICATION & WORKS DEPARTMENT

KHYBER PAKHTUNKHWA

PREFACE

“Connecting GBV Survivors to Services Delivery Mechanisms at Khyber Pakhtunkhwa”

The Khyber Pakhtunkhwa Rural Accessibility Project (KP-RAP), in partnership with Khwendo Kor (KK), has prioritized addressing Gender-Based Violence (GBV), Sexual Exploitation and Abuse (SEA), and Sexual Harassment (SH) across its operational site under component 1) Safe and Climate Resilient Access and component 2) Safe and Affordable School Journeys for Girls in the Khyber Pakhtunkhwa (KP). Under Both components, KK is responsible to strengthen capacity build of stakeholders on GBV Case Management and effective use of Grievance Redressal Committees notified by the KP Government.

For effective case management and referral services, Khwendo Kor has conducted a mapping exercise in 23 districts of Khyber Pakhtunkhwa (KP) as Technical GBV Firm under KP-RAP mandate for Communication and Works Department of KP Government. The field teams visited various departments to provide orientation on Gender-Based Violence (GBV) response services mapping using a template from the World Bank for the Khyber Pakhtunkhwa Rural Accessibility project.

The mapping includes details of services provided, Focal Persons, contact information, and the range of support available to survivors, such as medical aid, legal assistance, shelter, psychological support, and child protection services. The institutions listed, including the Social Welfare Department, Pakistan Bait-ul-Mal, District Headquarter Hospital, Child Protection & Welfare Commission, and District Police Office, form a functional network of entities working on GBV at the district level. Most institutions offer walk-in services and are open to collaboration on referrals and capacity-building training. This mapping exercise identifies both strengths and gaps in services, highlighting the need for standardized referral processes, consistent GBV response training, and increased community outreach. Its goal is to enhance coordination among stakeholders and enable prompt, survivor-focused interventions. This directory is tailored for GBV survivors, Government Personnel, Case Managers, and Service Providers/Stakeholders involved in GBV Survivor Support. In the referral directory there are 33 administrative units overseeing governance and development activities in KP-RAP 23, targeted districts. A total of 103 government bodies are working together to ensure efficient coordination and public service delivery. Healthcare services are provided through 24 hospitals, ensuring accessibility in every district. Public safety is maintained by 26 police departments operating in the region. Furthermore, 28 NGOs are actively involved in education, health, and community development, addressing the needs of the population.

Khwendo Kor believes that this knowledge resource will be a valuable tool for facilitating smooth and efficient coordination in referring cases to the appropriate service providers across the 23 districts of Khyber Pakhtunkhwa.

DR. MARYUM BIBI,
Chief Executive – Khwendo Kor.

This Referral Directory is produced as a Deliverable assigned to Khwendo Kor (GBV Firm) by Khyber Pakhtunkhwa Rural Accessibility Project (KP-RAP) Communication and Works Department, Khyber Pakhtunkhwa. The contents are the sole responsibility of Khwendo Kor.
